

B.Sc in Export Agriculture**Faculty of Animal Science & Export Agriculture
Uva Wellassa University of Sri Lanka****Year III Semester I
End Semester Examination 2008/2009****Introduction to Remote Sensing (EAG 348-0)****Instructions****Answer all questions.**

No. of questions : Four (4)
No. of pages : One (01)
Time : One hour (1 hour)
Total marks allocated : 100%

1. "Applications of remote sensing always depend on the spatial resolution of the images"
Describe
2. What is a framing system in remote sensing and describe the major components in a framing system
3. Describe the major features in different scanning systems used in remote sensing?
4. What are the major characteristics in remote sensing images?
